

New York, April 2nd, 2019

Dear Prof. Hoffbrand,

Hadassah International and Hadassah, The Women's Zionist Organization of America wish to extend our appreciation for the over 50 years you have been associated with the Hadassah Hospital and the twenty -three years you have expressed your dedication by serving on the Hadassah UK Board of Trustees.

We know that over the years you have received numerous honors in recognition of your outstanding contributions to research and treatment in the field of Haematology.

It is fitting that Hadassah UK is recognizing your many contributions to Hadassah by dedicating a room in your honor in the newly renovated Haematology Department in the round Building at Hadassah Ein Kerem. We hope that you have the opportunity to visit Hadassah and see how the much-needed changes to the Round Building are making a major difference to Hadassah, and to know that you will always be a part of the Haematology Department at Hadassah.

Thank you for all you have done and all that you have stood for over the years. We hope that you will continue your relationship with Hadassah for many years to come in good health.

Sincerely,

Robert Dorfman
President, Hadassah International

Melissa Kaplan
Executive Director, Hadassah International
